Development (1948) Department

MS SERIES.

G.O. No. 783.

Dated 22. 9. 1948

[Despatch Abstract.]

Stores - Animal Husbandry Department - Revised Estimate for 1948-1949 and Budget Estimate for 1949-1950.

Animal Husbandry Department,
Triplicane P.O., Madras,
Dated 26th August 1948.

ROC.No.689-V/48.

From

Sri K.S. Nayar, GBVC.,MRCVS., DTVM.,
Director of Animal Husbandry, Madras.

To

The Secretary to Government,
Development Department, Madras.

Sir,

Sub:- Stores - European - Revised estimates for 1948-1949 budget estimates for 1949-1950.

- - -

I have the honour to forward herewith the revised estimates of expenditure on ~~xxxx~~ stores to be incurred in England during 1948-49 and a forecast for a similar expenditure for the year 1949-1950.

2. The budget provision for the current year 1948-1949 under "41. Veterinary-Charges in England- High Commissioner for India - D.C. Stores - for India - Voted" is £ 360 vide G.O.No. 4867, Development dated 14-10-1947. The total revised estimate for the current year 1948-1949 comes to £.1,256/- or 1,260/- (to the next multiple of 15) and this includes the cost of stores indented for during 1946-1947 and 1947-1948, out of which, some of the articles were actually received during the current year, the remaining having not yet been supplied.

3. The provision in the forecast for the next year i.e. 1949-1950 has been restricted to the barest minimum. The stores required for the executive staff of the department are, as usual the spare parts of the articles obtained in previous years and other essential articles which are not available in India nad indispensable for the running of the Livestock Research Station, Hosur. Provision has been made for the purchase of 27 twenty c.c. and twenty-four 5 c.c. syringes with sufficient number of spare barrels, to be replaced as occasion arises for worn out syringes.

4. Some original instruments and appliances, poultry and agricultural appliances and implements of European origin which are required for use at the Livestock Research Station, Hosur and Poultry Research Station, Teynampet and by the executive staff have been included.

5. The increase in the cost of the forecast, as compared to the previous years, is chiefly due to the inclusion of large items of stroes required for the Livestock Research Station, Hosur and Poultry Research Station, Teynampet and the three District Poultry Farms, consequent on all round increase in the activities of the department in these directions. I may also point out, that the increased amount is due to replacement of several parts of agricultural implements long in use in the farms.

6. As approximate prices for most of the Agricultural appliances are not available, a ~~x~~ lump sum provision of £ 1,000/- or £1,005/- to the nearest multiple of 15 including freight charges etc., has been made in the forecast for 1949-1950.

Yours faithfully,

Sd/- K.S. Nair.

Director of Animal Husbandry,
Madras.

p.t.o.

Revised estimate of expenditure on stores to be incurred in England during the year 1948-1949.

- - -

(1) Approximate cost of stores indented for during the year 1946-4947 but some of which were actually received during 1948-1949, the remaining having not been received yet. £ 461-0-0

(2) Estimated cost of stores ordered during the year 1947-1948, but not yet supplied. £ 435-0-0

(3) Estimated cost of indents for the year 1948-1949 vide indant No.379-V/47 dated 12-12-1947. £ 360-0-0

£ 1,256-0-0
or
1,260/-
(in multiple of £ 15)

Forecast of stroes for 1949-50 required from England.

The value of stores required for the department freight charges as per list appended to this office ROC.No.685-V/48 dated 26-8-1948. . . . 1,000/-
or
£ 1,005-0-0
(in multiple of £ 15).

Sd/- K.S. Nair
Director of Animal Husbandry, Madr

Forecast of stores of European manufacture required for the executive staff of the Animal Husbandry Department, Madras during the year 1949-1950.
